Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 10-14 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims are drawn to a polymer, which would be classified in 560/1 or 526/74 and would also require an additional search.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 10-14 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 4, and 6-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Miyake (EP 936504).

Miyake discloses a radiation sensitive material comprising a resin, an acid generator, and a photosensitizer in amounts meeting the instant claim limitations. The references disclose formula 2 appears to be the first structure of the instant claims and is employed in the examples of the reference. Formula 7 appears to be structure 2 (the CORCOOH group would be a substituted lower alkyl group). Alternatively, on page 10, paragraph [0084], it is taught that acrylates or

methacrylates such as methoxydiethyleneglycol, ethoxydiethyleneglycol, methoxytriethyleneglycol, phenoxytriethyleneglycol (meth)acrylates are preferably added to the resist composition. Therefore, given the teachings of the reference, it would have been obvious to one of ordinary skill in the art to prepare the material of Miyake choosing the described compounds meeting the instant structure 2, with reasonable expectation of achieving a material having high sensitivity and etch resistance.

Conclusion

The Anderson rejection made in the previous office action has been dropped in light of the amendment.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

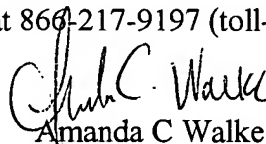

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
